X-CHIP 100 SMD

## Custom Light and Sound create a VIP architectural lighting atmosphere with X-Chips

The Dollhouse located in Raleigh, NC recently did an upgrade on their VIP rooms and came to Acclaim dealer Custom Light and Sound for an LED lighting solution for their coves in the ceiling,

Because it was a tight space, CSL chose Acclaim lighting X-Chips which are perfect for this application and over 400pcs were used to light three separate cove areas. The X-Chips are controlled via DMX by a Show Designer 1.

Below are some sample photo's of the system in action and more information on X-Chip can be found on our web site at [www.acclaimlighting.com](http://www.acclaimlighting.com) or contact [info@acclaimlighting.com](mailto:info@acclaimlighting.com)
